

STEEL STOREHOUSE

Steel Storehouse LLC, is a full line metals service center located in Lawrence, PA, a few miles from the Southpointe exit off Interstate 79 in Washington County. Steel Storehouse, LLC is able to serve municipalities, government contractors, sub-contractors, colleges and universities, trade schools, machine shops, welders, building contractors, and many other customers, including the general public. Steel Storehouse, LLC provides a valuable service, offering our customers the opportunity to purchase the exact size and amount of material that is required for a particular project.

In addition to supplying smaller sizes, our relationship with steel mills allows us to offer full length items. We sell prime, pedigreed low and mild carbon steels, as well as, the material and shapes listed below.
