Peddinghaus Anglemaster-HD

A BULLETIN 15 APPROVED COMPANY

- **Capable of punching a 1-1/2" diameter hole or slot**
- **40' material infeed**
- **High production output**
- **Number & letter stamping**
- **Superior accuracy and flexibility**

Angle sizes: 1-1/2" x 1-1/2" x 3/16" to 8" x 8" x 1"

Flat bar sizes: 3/16" x 2" to 1" x 12"

Channel sizes: C6 x 8.2# to C12 x 30# (web punching only, no shear)

Two 169 ton punch cylinders each with three punch stations per hydraulic press allow the Anglemaster-HD to apply up to three different hole shapes/sizes per leg (circles, squares, rectangles, obrounds and slots). The Anglemaster-HD uses a single cut 515 ton shear for the cutting to length angle and flat stock.
